EDUCATION

Shanmugha Arts, Science, Technology and Research Academy B.Tech in Computer Science and Engineering	2024 – 2028
SR Junior College Class 12th	2022 – 2024
Narayana School Class 10th	2022

COURSEWORK

- Data Structures and Algorithms
- Database Management System (DBMS)
- Object Oriented Programming (OOPS)
- Web Development
- Design and Analysis of Algorithms

PROJECTS

SastraPlacements Web Application

- Developed a web platform to manage records of students who secured placements.
- Enabled juniors to connect with seniors for placement guidance and queries.
- Implemented authentication and form validation using HTML, CSS and JavaScript.
- Built backend logic for secure storage and retrieval of placement data.
- Structured the application modularly for maintainability and scalability.

Hospital Management System

- Developed a system for patient registration, appointment scheduling, and medical record management.
- Implemented modules for storing and retrieving patient details efficiently.
- Applied object-oriented programming to structure patients, doctors, and appointment modules.
- Ensured organized data management and smooth hospital workflow.

TECHNICAL SKILLS

Languages: C, C++, Java (Intermediate), JavaScript, Java Swing (Intermediate), SQL, HTML, CSS

Frameworks & Libraries: React.js, Node.js, Express.js, Bootstrap

Databases: MongoDB, MySQL

Tools & Platforms: VS Code, Postman, GitHub, ChatGPT, Canva

Achievements

Secured **All India Rank 50000** in JEE Mains among 1 million participants.

FUTURE GOALS

Gain hands-on experience in **full-stack development and backend systems**, contributing to real-world projects using modern technologies.

Explore **Artificial Intelligence and Machine Learning** to develop intelligent systems and integrate AI-powered features into applications.
